Description:
Now with a new look celebrating 20 years of Nicholas Sparks! Divorced and disillusioned about relationships, Theresa Osborne is jogging when she finds a bottle on the beach. Inside is a letter of love and longing to Catherine, signed simply Garrett. I hate to admit that I have read a novel by Nicholas Sparks. I hate to admit that I have read all of his romances, which I did in about a week and a half while suffering with the flu. Nothing too heavy during that time. Interestingly I left Message in a Bottle until the last of his romances to read. I wasn't going to even read it because of the movie tie in which I havent seen. So what did I think? Well I thought this is probably the best romance novel Sparks or any romance writer has written. The two main character are expertly drawn. The contrast between North Carolina and Boston makes for interesting descriptions of place and most interestingly this novel has as non-traditional plot and ending as you are likely to read in this genre. Again this isn't Moby Dick but it is an excellent novel in its own right. It is with great embarrassment that I recommend this small emotionally written novel.
